Loop Approved Vanpool Provider

The vanpool vehicle must be leased from an approved Loop vanpool provider, by a vanpool participant or participant's employer. Minimum Riders/Subsidy Amount

The SB Loop subsidy per approved vanpool is up to 50% of total lease costs for the vanpool each month, not to exceed \$400 per month. The first month subsidy will be issued when the vanpool meets 70% average daily ridership. Should your subsidy begin during the month, the Loop will prorate the subsidy based on the number of commute days during the month. Ongoing, the vanpool is required to maintain 50% or greater average daily ridership to continue receiving the subsidy. SBCTA pays the subsidy directly to the leasing vendors on a monthly basis. Payment is contingent on an approved application, regular submission of a Participant Monthly Report, and fulfillment of occupancy requirements. For full program details and requirements, view the [Participation Agreement and SB Loop Occupancy Chart](#) at ridetheloop.com.
